

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is outrageous.

The airwaves, if they are owned, are owned by the public. Sinclair has a license not a right to use them. The license is granted on the understanding that it will be used in the public interest not to further corporate political objectives. Airing a one sided political commercial and forcing it on the public, by ordering subsidiary stations to carry it is clearly not in the public interest. While corporate America is entitled to its opinions it should not force them on the public by abusing and violating the license to use the publicly owned airwaves. The FCC, as the agent for the public should exercise its authority to correct this abuse. Thank you.
